

DID YOU KNOW...

19 PEOPLE DIE EVERY DAY WHILE WAITING FOR A TRANSPLANT.

ORGAN DONATION IS A SURGICAL PROCEDURE AND DONORS **CAN** HAVE OPEN CASKET FUNERALS.

PLACEMENT ON THE TRANSPLANT WAITING LIST IS **NOT** AFFECTED BY WEALTH OR SOCIAL STATUS.

A DONOR'S FAMILY IS **NOT CHARGED** FOR THE COSTS OF DONATION.

THE **#1** PRIORITY OF AN EMT, DOCTOR OR NURSE IS TO SAVE THE LIFE IN FRONT OF THEM. DONATION IS NOT DISCUSSED UNTIL **AFTER** THE PATIENT IS DECLARED BRAIN DEAD.

BRAIN DEATH IS **IRREVERSIBLE**, UNLIKE A COMA OR PERSISTENT VEGITATIVE STATE.

LESS THAN **0.5%** OF DEATHS IN THE U.S. ARE EVEN ELIGIBLE FOR DONATION.

APPROXIMATELY **42%** OF PEOPLE IN THE U.S. ARE ON A DONOR REGISTRY.

THE MOST IMPORTANT STEP IN GIVING THE GIFT OF LIFE IS TO **DISCUSS** YOUR DECISION WITH YOUR LOVED ONES.

Make the Decision to Save lives.
